Get the entire series before beginnning!

By Britt K

So far this has been a fine read. I would recommend this for either right- before- bed, or on the beach, a quiet afternoon, etc. There are quite a few dynamic features to the story line. A few twists and tunes, and the characters are pretty well developed. There are a few parts that could be edited slightly better, but I do know most authors on here prefer for their readers to help them out in this aspect.

It was not hard reading by any means, but it was also not an elementary level book. Be prepared for some love scenes. But honestly, sometimes they do add to the storyline, right?

I hope to either purchase more in this series (if there is one) or get the author motivated to write more! Not that this was left with just a cliffhanger or anything, I have just loved how the storyline was developed, and would love to know where this could head into the future. Knowing how the characters have developed, interacted, and have grown leaves me with a lot of hope for more. I always love series/ books where there is a spin- off into a similar setting, but with acquaintances that the characters had, or will have.

Overall, this is a great value and I would highly recommend it. It is a great value for the price, and it simply

cannot be beat! I will be purchasing more from this author in the future, and look forward to new releases.
