3.5 stars, but with potential!

By Kristee Walker

I reluctantly gave this book 3.5 stars because I thought the story had a lot of potential but it wasn't met. I'll explain further...

The story is about Jake, a teenager (I believe in Grade 11?) who has just discovered that he possesses a special gift, and he is a "gifted one". He is told by other gifted that he can't be with the girl he recently started a relationship with (and loves) because he will just endanger her, and they give him many examples of gifted ones losing people they love to the defiers because they target their weaknesses. There is not much information given about the defiers or where they come from, but we assume they are "evil" and the gifted ones are "good"

Nice idea with the gifts and how they manifest themselves and how they train together and so on, but not clear on what the covenant is, or what the rules are, or what their purpose is.

Why I deducted 1.5 stars:

First (minus half star)- while we are told that Jake and Anna have been best friends since they were young and had strong feelings for each other, I just didn't feel it. Their relationship seemed a bit (and I hate to say this word) cheesy. She was ready to give up on him so quickly and he was ready to give up on her so easily

because someone told him so, I just think love is usually stronger than that, and harder to let go of, and it just didn't feel that strong to me.

Second - finally! A YA book told SOLELY from a male point of view!... but Jake kinda thought and acted like....a girl. He didn't really have a strong male personality like I've read in other books that have dual points of view but that's just my opinion and I couldn't really deduct a star for that.

Lastly (minus one star) and this could just be me totally, but the first 2/3 of the book seemed to draaaaaaggg... Things didn't really pick up until the end, and I'll be honest, I almost gave up on something eventful happening and I actually paused this book to read another that was released, and then continued it after. If I can put a book down to read another, and it doesn't keep me up until 2am because I HAVE to know how it ends, I can't give it 5 stars.

Hopefully the sequel picks up on the action a little quicker and gives us a little more background info and keeps me turning those pages.

Happy reading!

The premise is interesting, but the characters lacked something.

By CheerioMom

The overall plot of Branded is interesting. There are people who are Gifted Ones possessing supernatural powers, this story centers on Jacob Rovert and his friends discovering their abilities and how it affects their lives and relationships. On the opposing side, the Defiers have similar powers and are enemies of the Gifted Ones.

Jake's story has potential. He loves a girl that he has grown up with named Anna, but he must keep his powers a secret from her for her own protection. His love for her is obvious in Branded, but I never felt like I understood why Jake loves Anna so passionately. The characters are flat and one dimensional. I was never given a reason to like Anna or even care about what happens to her. I read a bit of the next book in the series, and it appears to be written in Anna's voice, so maybe the author was holding back for that reason, but I just don't feel like this book pulled me in enough to keep me reading the trilogy.

Lets get some HONEST reviews on here

By crystal roxburgh

Found the book to be extremely slow and didn't captivate me nor develop the characters enough. Let me tell you what frustrates me about all these positive reviews on here. There are so many fake or false reviews on products if you take the time to research it. This book being a great example. There are about THREE REAL reviews on this book on here. How can you tell? Go to see all my reviews when your reading an individuals review and you will see on here that almost every person who reviewed this item "SO WONDERFUL, GREAT READ, COULDN'T PUT IT DOWM, CAN'T WAIT FOR THE SEQUEL, ETC" only has written one review EVER and it happens to be for this book. There is your red flag on fake reviews. I also noticed that most of the fake reviewers on here also posted the same review twice to up the star status. Some even had two positive reviews for the same book same reviewer. Let a book speak for itself from true consumers and not a bunch of fake reviews
