It's so easy and so fats, right? You should like to by doing this.

Review

"This book will be a worthy addition to the Bedford series. In a thoughtful introduction, Rakove takes the reader through the development of the notion of rights as well as through the specific history of the first ten amendments to the federal Constitution. He presents his readers with a well-chosen set of documents and groups them coherently, introducing each group with a brief but provocative sketch-essay."

About the Author

Jack N. Rakove is Coe Professor of History and American Studies and professor (by courtesy) of political science at Stanford University. His scholarly work concentrates on the creation of a national policy in Revolutionary America, the problem of ascertaining the "original meaning" on the Constitution, and the political career and thinking of James Madison. His most recent book, *Original Meanings: Politics and Ideas in the Making of the Constitution* (1996), won the 1997 Pulitzer Prize in history. Rakove's other works include *James Madison and the Creation of the American Republic* (1990), *Interpreting the Constitution: The Debate over Original Intent* (1990), and *The Beginnings of National Politics: An Interpretative History of the Continental Congress* (1979). He contributes to numerous scholarly and legal journals and lectures both in the United States and abroad.

Rights

By Crank2Lover

I bought this book because I needed it for some homework assignments in my History Class. The book was very insightful and easy to read. I personally learned alot about the history of rights and I think that this book should be used in more history classes.

Excellent collection

By Virgule

This is a fine collection of documents leading up to and through the American Revolution. It puts the issues in clear perspective from the people who were writing about them. Rakove's introductions are what you would expect from him: clear, articulate, reminding you of some things you maybe did know and telling you quite a few you didn't. An excellent mix of primary- and secondary-source information.

not very good

By Bronx Book Guy

The book provides some background to the subject along with excerpts from some key documents.

I expected a more comprehensive and readable summary of the basics here. Basically, disappointed.
