Great book!

By J. Doll

I can't draw very well, so I bought this book to improve my drawing. This is a Great book for beginners!

Gives you an idea how to start off and how it should look finished! Awesome book as a "get started guide type". And After you got the idea of how to start to draw the monsters you can create your own. Perfect idea for kids that love to draw!

Great basic drawing book for the young AND young-at-heart.

By A Customer

Lee Ames does another excellent job, as he does with his entire "Draw 50" series. His step-by-step format is easy to use and quite rewarding as well. Ames is the only drawing artist that simplifies the drawings so that anyone can follow and become adept at drawing intriguing figures. This particular edition contains a great variety of characters to draw and will be on and off any doodler's bookshelf for years

Draw 50 Monsters

By Fred Baetz

I got this for my 11 year old Grandson for a Christmas present and he loved it.. i also purchased a sketch pad and some artist pencils for him to use and before he opened any other gifts he had the pad and book open and was starting to draw monsters. His mom said he just loved the book, so easy to use with clear instructions. Any kid who has a artist streak in him or her would enjoy the book...
