Dr. Woolger received his training in psychology and comparative religions at Oxford and London Universities and is a graduate of the C. G. Jung Institute at Zurich. In this daring session, he reveals a series of events that builds to a startling theory: that Carl Jung's work with the collective unconscious provides a basis for interpreting "past-life episodes". With clinical detail, Dr. Woolger describes many examples of past-life episodes in America and Europe over the past 20 years.

Additional topics include: a dramatic demonstration of past-life regression; how past-life therapy relates to meditation practice; phobias and causal episodes; Jung and multiple personality types; incorporating psychodrama theory; Ericksonian trance state; and much more.

Good but find the download

In the past, because it wasn't available on CD I got the tapes. But about 1 year ago I found a mp3 download version at the publishers website. Unfortunately this was about the same time the author passed away.
