I loved this book, the author made it relative to everyone

By Hadley

The author's approach to complexity, made it all seem to come together with simplicity. I had heart surgery and was worried about taking self defense classes, with the movements provided in this book I feel safe learning and practicing. I am buying this book for Christmas presents this year.

By J.H. Manfred

Just the thing for the thinking person. I have carried a cane for security for 20 years and this book has shown me quite a few new tricks. Just the tips on being more aware of everything around you should help everyone. Get a cane, get the book, be secure.

Waste of Money!!!

By A B Muenzenmayer

It was a waste of money, read it in two hours, lousy graphics I couldn't follow. Money better spent on a video, with realistic movements a novice could follow. Mostly just common sense that if you don't have, you can't learn from a book. Sorry I just felt ripped off, donated it to my Combat Vets group rather than throw it away
