Relief from PA behavior is a godsend

By Papa Bear 1436

If you have ever been on the receiving end of passive aggressive behavior or if you've been told that you exhibit such behavior yourself, then buy this book and read it from cover to cover. This book holds the key to identifying passive aggressive behavior in all its forms and helps you to understand the various methods to defend against being sucked into the no win situation. PA behavior is insidious and it's so easy to fall into its trap before you even know that it's happening. Once you understand that you have options, you will find yourself letting go of all of the anger and frustration that PA causes. Don't be surprised if others are shocked when you take back control of the situation. This is the beginning of a life long journey to regaining your piece of mind.

Wish it were more widely available!

By Peggy

This is such a fantastic book and SO helpful in dealing with passive aggressive people that I can't believe it

hasn't been published to be more readily available for the general public. Absolutely the best book I have read on dealing with these sorts of issues. I got it as an inter-library loan since I couldn't afford to pay \$45 for it from Amazon.
