The best book about grain merchandising

By Fung Hoi Yan

It's a great book about grain merchandising. It's written in plain english with many graphs. It starts with the basics and develop your knowledge bit by bit.

0 of 0 people found the following review helpful.

Five Stars

By Amazon Customer

Love it!

3 of 3 people found the following review helpful.

Good coverage of merchandising

By bookbuyer

This is a great book because there isn't much out there that covers grain merchandising in such a complete way.

Although it's a textbook it really gives concrete, real-world examples of merchandising situations. It starts by going over the basics and progresses into the more advanced topics of things like transportation, storage at farms, storage costs, etc.. It also goes into topics beyond classroom material and offers advice on merchandising aspects like the potential of simply cold-calling potential buyers.

Overall a great book for anyone interested in the commodity markets, farmers or anyone involved in an elevator.
