Strange, mysterious little textbook. Should confuse and intimidate ...

By Porter DM Doran

Strange, mysterious little textbook. Should confuse and intimidate most students (where it does not bore, of course). Evidently this is Mr. Ballenger's idea of innovative, non-traditional pedagogy. But you know, you buy what you're told to for class.

0 of 0 people found the following review helpful.

Five Stars

By miguelponce

the book can in at a great price and in great condition.

Respect the Process

By BigD

Students who don't like this book simply don't like to work. It requires a great deal of work to understand the process of writing well. It doesn't come easily. But this book makes visible all the things that go on in a good writer's head and helps students to do them, too. Poor writers believe that if they avoid writing, it will get better. It doesn't. The only thing that improves writing is writing. Reading good writing helps, but actually, writing and revision are the key. Students who find their voices are thrilled at the discovery and books like this seem to help them toward that end. I applaud the author's creativity and accessibility.
