They said she was armed.
They said she was dangerous.
They were right.

Petty Moshen spent eighteen years of her life as a prisoner in her own home, training with military precision for everything, ready for anything. She can disarm, dismember, and kill—and now, for the first time ever, she is free.

Her paranoid father is dead, his extreme dominance and rules a thing of the past, but his influence remains as strong as ever. When his final will reveals a future more terrible than her captive past, Petty knows she must escape—by whatever means necessary.

But when Petty learns the truth behind her father's madness—and her own family—the reality is worse than anything she could have imagined. On the road and in over her head, Petty's fight for her life has just begun.

Fans of female-powered thrillers will love debut author LS Hawker and her suspenseful tale of a young woman on the run for her future...and from the nightmares of her past.

And dangerously beautiful. Hawker does a great job giving us insight ...

By Eugene Scott

Petty has been held captive by her father for years and when he dies of a heart attack, she bounces between

mourning and rejoicing. She is at a loss as to what to do. The stipulations in her father's will soon decide the matter for her. She runs, armed and dangerous, pursuing answers to her many questions about why her father controlled her every move and who her family really is. She is pursued by her father's only friend, a militia nut, and the police.

From that moment on, the chase is tense and heart rending. Not only must Petty remain free (and alive) but she must navigate a world she has only seen on reruns on TV. The real world is much more unpredictable and cruel. And dangerously beautiful.

Hawker does a great job giving us insight into Petty's struggle (internal and external) while keeping the pages turning as if blown by a fan motor. The twists and turns surprise and delight. Petty is both tender and terrifyingly tough. Dekker, her unwilling companion, seems to need to hold her and hold a gun on her. Despite all this, Petty charges ahead into an inevitable collision with her past.

But this is not only a well written chase story with high stakes. It is a parable about life fifteen years into our fear riddled century. Petty has been convinced that the only response to life is fear and to arm against it. So too are many of us who watch the news or listen to politicians. Fear locks us in every night. We are succored on a false view of life that keeps us worrying about lies and/or things that are opposite from what we've been told. Today's parents especially are warned that every stranger is danger, that many foods are poison, and that life outside the house is risky at best. In many ways we are Petty. And like her we need to find the truth no matter how dangerous.

Reviews from the Heart Review

By The Ordinary Housewife

This is one of the best books I've read in quite a while! This is a dark read that covers subject

matter that some may find offensive, but it is extremely well written and handled so well that I literally could not put this book down! When I first started reading this I was honestly a little apprehensive about reading this book since the entire situation seems a bit off from page one and only gets stranger from there. Keep reading! I am so thankful that I stuck with this story and kept reading as this is honestly one of the best stories I've read this entire year! Petty and her father have lived isolated from the rest of society and live a survivalist lifestyle to the extreme. Petty has been trained by her father rather than raised as most little girls are. She has been trained to be lethal and efficient and has learned never to trust anyone under any circumstances. He has taught her that the world is a dangerous place and even

goes to the extreme of locking her in her bedroom each and every night under the guise of keeping her safe. This is the only life Petty has ever known and she has absolutely no idea that her life is far from normal. They live on the outskirts of a small town and are known as the town crazies. Everything goes along fine for Petty until she discovers her father's dead body in his bed one night and everything goes off the rails from that point for her. The police have to be called in to collect her father's body and the one friend her father actually had shows up to help Petty take care of the funeral arrangements. He has ulterior motives that are seedy and malicious and I hate him from the second he graces the pages of this story. The things he does to Petty are horrible and I found myself truly wishing for bad things to happen to this disgusting excuse for a man the entire book!

My heart broke over and over for Petty for everything she's gone through and I love her strength and determination to make it through whatever life throws at her. She is a truly inspiring individual and I found myself wanting something good to finally happen for her. Dekker is a local resident of the small town Petty lived in and he gets pulled into her strange and twisted world and taken on this life changing adventure with her. Petty is going through so many journeys simultaneously and manages to hold herself together stoically through it all.. She's on a mission to find herself, to trace herself back to her roots and to figure out where she fits in this crazy world and I enjoyed every second of reading about it. This is an extremely intense read that grabbed a hold of me from page one and kept me on the edge of my seat until the very last page! I highly recommend this book to anyone and am so thankful that I got to read this. Books like this don't come along every day.
