Great advice!

By NY-LON

As a transplant from one of the cities covered in the book to another, I'm thrilled to have someone lay out for me in black and white just how different flirting is in different places. And I love that the book is based on scientific research, so I trust that the information is real, rather than just someone's speculation. I know I'll be turning back to certain sections for a much closer read, but I've already learned a lot about how I can be a

more effective flirt in my own city, as well as when I travel (which is frequently)!
