The best book about the future.

By ZigMan

Cecil Sanders presents a wonderful account of the amillennial perspective. He plainly shows from the scriptures how the amillennial position is scriptural and correct. At times he compares amillennialism against other well known positions. It is rich with scripture and doctrine, yet easy to read. I recommend this book to everyone.

One of the Best for the Layperson

By Amazon Customer

This is a little book left (to me) by my father, who purchased it on 8Sept1990 (as noted in ink on the bottom back cover). I finally read it this year (2009) and loved it so much I bought a copy for my son. I wish Dr Cecil Sanders had written more books, he had a gift for writing like I suspect he spoke, very kindly, thoroughly and concise. Only 160 pages of text and 4 charts, he makes the position of the Amillennialist clear and understandable without scolding those who have other views. There are other books more in depth, but none go down as sweetly as this one.
