"Man: A Shadow's Dream." - Pindar

Who are the Hidden Masters?

Read explosive inside information about the true Illuminati by a current member. What was the connection between the Illuminati and the French and American Revolutions?

Is the coded novel "Etidorpha" by John Uri Lloyd about the Illuminati? Is it a reference to the real-life murder of renegade Freemason William Morgan?

Is "A Voyage to Arcturus" by David Lindsay a forgotten Gnostic masterpiece?

It's time to enter the world of secrets. It's time for the Illuminati, the secret society that has fought for millennia to liberate humanity from the slavery of the archons, the secret princes of the world.

Another great book by the Pythagorean Illuminati

By Brad Gumm

This is one of a series of books by the Pythagorean Illuminati. Just like everything from them it is filled with amazing information and is written in an easy to read style. If you are at all interested in life's greatest mysteries you need to read all of the Illuminati's books. You should also check out their massive website armageddonconspiracy.co.uk and their facebook page Ancient Order of The Illuminati that links directly from the website.

This book begins by showing us that the official version of history is not the true history of the world. The true history of the world is known and made by powerful people conspiring in secret rooms far from public scrutiny. It then explains exactly how just 6000 people are able to rule the whole world. It also refutes contentious claims made about the Illuminati in the book "The Secret History of the World" by Jonathan Black.

Next the book examines some other books that are related to the Illuminati. The first is called "Etidorpha" by John Uri LLOYD. "Etidorpha" was written in 1895 and is inspired by the real life act of treachery of a member of the Illuminati who attempted to publicly reveal secret practices of the Illuminati. The next related books

are all by the author David Lindsay.

My personal favorite part of the book was about the great philosopher and Illuminati grand master Gottfried Wilhelm Leibniz. The book examines the conflict between Leibniz and Isaac Newton and explains how the logician Kurt Godel believed that Leibniz had discovered the answer to the riddle of life and that this answer was suppressed by sinister parties.

The Illuminati's books need to be read by all people who aren't satisfied with this world and know something is gravely wrong with society. They need to be read as soon as possible so we can begin the process of changing everything for the benefit of everybody. We are running out of time so read and get active!

excellent Gnostic book in the best modern spiritual series

By David Melik

I read this years ago as an article series, and do not recall verbatim, but think it is the best (along with his others and those of the two associated writers) introductory modern series on rationalist idealism in Classical Greek & Cartesian & German Idealist philosophy & postmodernism, including Pythagoreanism/Illumination, Platonism, Hermetism, Gnosticism, Leibnizianism, Hegelianism, formal & natural & social science, religion, and the arts, in this case on mathematics, gnosticism, history, literature, etc.

Be informed. Be aware.

By Myles Marriott

Brings to your attention how many people run this world and the history of The IO. Reveals a detailed plan of how easy it is to rule this world with common outlook and purpose.
