I saw this was a best seller, so why not give it a shot? I did and I've been thanking my old self for that decision for the past 10 minutes! Peter converted a complex subject into simple words. No wonders it's only 30 pages, but the content has no filler. It's just the meat. I picked up a few golden nuggets that I think will make a serious difference in my business. It was a quick read and honestly the value of this book is maybe a thousand dollars. It's not info, but condescended wisdom ready for application... Don't we entrepreneurs all long for that?
