The essentials of Heinlein's universe. Considering when they were written the ideas are provoking, imaginative and enjoyable. These stories retain a naive freshness and the power to re-invoke the unaffected excitement of sci-fi of the 50's and 60's.

This book is a wonderful place to start your adventure in time and space. I loved it in paperback and I love it just as much in ebook. It's just a shame that Amazon couldn't be bothered to get it edited or at least spell checked after scanning it.
