no I picked the most boring book ever

By guadalupe

When I went downstairs to the library to look for a book I thought I was going to pick an interesting book. But, no I picked the most boring book ever. At first it interested me because Chelsea Spain the main character and her friends and her brother were cool but then I just wanted it to get to the point. I mean like Chelsea's friend Athena got kidnapped and this guy named Harry saved her that's chill but I just wanted it to get to the point of the book.

The whole point of the book is she takes a risk and then her father all of a sudden like gets in an accident and Chelsea's whole world changes and she knows she's been acting badly as a teenager. As I was reading it felt like the author just kept stalling and I was about to just skip the whole book and get to the end. That's how bored I was. Don't waste your time or money on this book because to be honest I would rather read a whole thesaurus than read this book again.
